

## JAKES, COMES CLEAN!!

Dear Jakes Customers

We are living in unprecedented times!

As the everyday is rapidly changing, we want to reassure you that we are monitoring and following the advice from the government closely. We take pride in the standards that we have in our restaurants and we want to reassure you that we are dedicated to creating safe and delicious food and drinks.

Here are some of the steps we are taking in response to the Covid-19:

- We use industry grade antibacterial cleaning solutions and our restaurants are thoroughly cleaned on opening and closing each day.
- We continue to sanitize all surfaces, furniture and equipment that are regularly being touched by all staff or customers.
- We continue to reinforce regular and thorough handwashing of our staff members.
- Staff members are also washing their hands after money or cards have been touched.
- Our kitchens are sanitised regularly, and all our food are stored in the utmost hygienic manner.

Our restaurants remain open as we continue to look after our staff and customers.

We trust that you and your families stay healthy
